Except where otherwise noted, % refers to % of Medicaid-Paid Births. A small number of women who were non-citizens based on eligibility received managed care services. Therefore, the number of non-citizen FFS may be slightly smaller than the overall number of non-citizens reported elsewhere. Women were defined as Medicaid cases if they had either Medicaid-paid maternity care or at least three months of capitated payments in the six months prior to delivery. Low income pregnant women enrolled in Basic Health Plan who meet Medicaid eligibility guidelines are transferred into Medicaid for prenatal and postpartum care.
